

**Virginia FBLA - PBL  
FOUNDATION, Inc.**

**V**irginia Future Business Leaders of America-Phi Beta Lambda, Inc., is an organization for secondary (FBLA) and post-secondary (PBL) students enrolled in business classes or those interested in the field of business. FBLA-PBL members focus on three major areas:

- ◆ service to school and community
- ◆ developing competent, aggressive leadership skills
- ◆ promoting academic excellence

To develop leadership skills, FBLA-PBL members participate in a wide variety of leadership development activities and conferences on local, state, and national levels. At conferences, students attend leadership workshops and participate in competitive events.

**L**eadership conference participation can cost each student between \$150 and \$1,000 depending upon location. Many schools are limited in conducting fundraising projects to support FBLA-PBL activities.

The Virginia FBLA-PBL Foundation, Inc., serves the FBLA-PBL members in Virginia by providing support for:

- ◆ state event winners to participate in national competition
- ◆ scholarships
- ◆ leadership development activities

The Foundation, a volunteer-based, not-for-profit organization, accumulates contributions and makes distributions exclusively from investment gains.

**F**oundation membership is open to anyone who has an interest in business and promoting the goals of FBLA-PBL:

- ◆ develop competent, aggressive business leadership
- ◆ strengthen the confidence of students in themselves and their work
- ◆ create more interest in and understanding of American business enterprise
- ◆ encourage members in the development of individual projects that contribute to the improvement of home, business, and community
- ◆ develop character, prepare for useful citizenship, and foster patriotism
- ◆ encourage and practice efficient money management
- ◆ encourage scholarship and promote school loyalty
- ◆ assist students in the establishment of occupational goals
- ◆ facilitate the transition from school to work
